Instructions: \_\_\_\_\_

**Services needed** (please circle)    NAIL TRIM    ANALS    KENNEL BATH    VACCINES    EXAM/OTHER

**Additional Services:** \_\_\_\_\_

Hospital policy is that all animals boarding must be current on vaccines to prevent the spread of infectious diseases within the facility. In the event your pet is not current on specific vaccines (DHPP, RABIES, BORDETELLA, FDRC) at the time of check-in, we will update these during your pet's stay at an additional charge. We will make every attempt to contact you and alert you to what is necessary to update.

Many pets develop gastrointestinal upset while boarding. In the event that your pet develops diarrhea/loose stools during their stay, we will run a FECAL to ensure your pet does not have any unknown intestinal parasites that could be spread to other pets. We will also prescribe and began administration of any medications warranted. Both these items will be additional charges and every effort will be made to notify you of the treatment prior to discharge.
